

XO GENIUS

BALANCE YOUR ENERGY

When the body can't access sugar or carbohydrates, it creates ketones — which are natural energy molecules that cleanly and efficiently burn fat. This process is known as ketosis, and is an extremely beneficial and balancing state for our organs and systems to heal and repair.

XOGenius is a premium ketone supplement that generates up to 6 hours of enhanced ketosis in just minutes vs. hours or days.

This delicious, mix-and-go powder quickly dissolves in water or other keto beverages, and safely produces up to 500% higher ketone levels than diet alone — and in just one dose. This means healthier fuel to burn without any additional food calories.

In fact, XOGenius is so effective, most patients achieve an average of 10 lbs. of weight loss in just the first 30 days.

Medically Supervised

Programs are physician monitored and individually tailored to ensure lasting success and efficacy.

Improved Compliance

Because Keto5 mitigates carb cravings and initial "keto flu" symptoms, patients stick with the program and typically experience a sense of evenness.

Nutritional Forgiveness™

Keto5 allows patients to enjoy a modest amount of carbohydrates while still maintaining their targeted ketosis levels.

Patented Formulation

Keto5 supplements are formulated with proprietary exogenous ketones containing BHB — the same natural molecule produced by the liver.

Only From Keto5

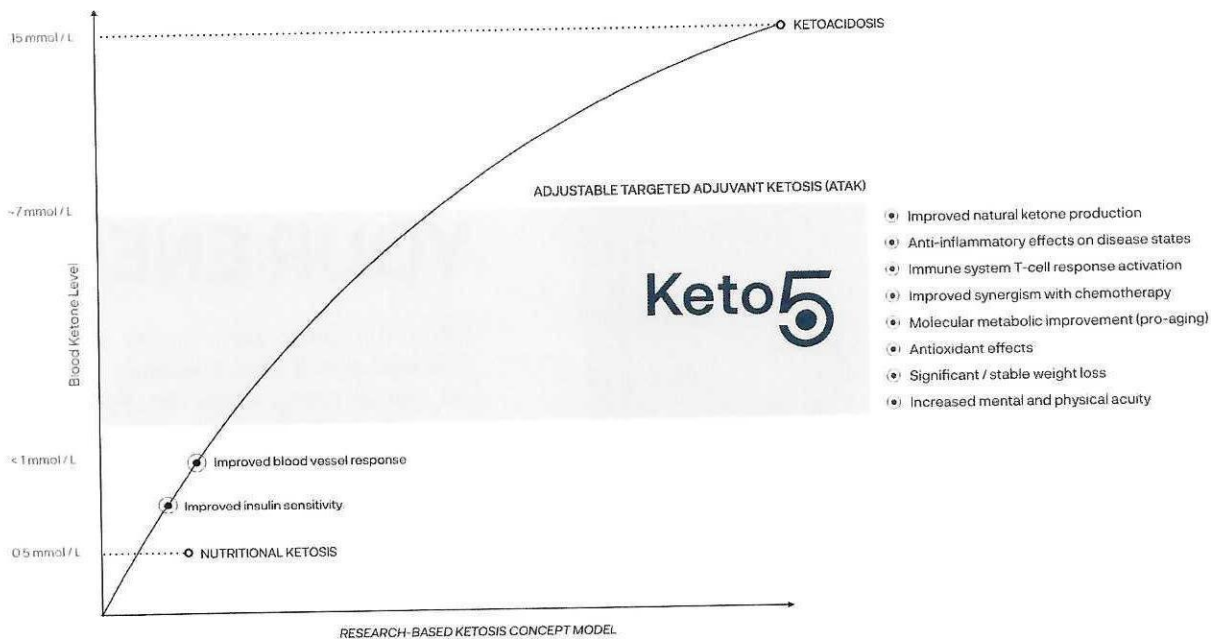

No other brand offers Keto5's patented benefits of targeted ketosis, reduced stomach distress, improved gut microbiome, and stabilization from insulin spikes.

Mental Acuity

Keto5 patients consistently report feeling mentally sharper, more physically energetic, and emotionally calmer.

WEIGHT LOSS IS JUST THE BEGINNING

Medical research has confirmed that the underlying cause of many major diseases — including cancer, diabetes, heart disease, kidney and liver disease, and even Alzheimer's — is chronic inflammation.

Due to the strain and pressure it puts on our internal organs, obesity is one of the primary producers of this deadly inflammatory state. Yet clinical trials have demonstrated up to 80% reduced inflammation in patients using the physician-supervised Keto5 system.

XOGenius is powerful and effective, elevating patients into a state of dietary ketosis that supports healthy weight loss. It can also achieve significant levels of adjuvant ketosis — which

promotes many essential health benefits, including natural inflammation support.

Our proprietary patented ketone formulation now contains XOStart, a high molecular-weight oligosaccharide that reduces the gastrointestinal distress and bloating commonly associated with many of the other ketone supplements. This powerful combination effectively stabilizes insulin levels and promotes a healthy gut microbiome.

Patients using Keto5 products now have the opportunity to live both longer and healthier, while enjoying more active and fulfilling lifestyles.

WARNING: For use by adults over the age of 18 only. Do not use if you are pregnant or nursing. Please seek advice from a physician or healthcare professional BEFORE taking this product to ensure that it is safe for you. In case of accidental overdose, contact a poison control center immediately. Exceeding recommended serving will not improve results and may cause serious adverse health effects. KEEP OUT OF THE REACH OF CHILDREN. No refrigeration required. Keep at room temperature and away from direct sunlight.
